SELLS MORTGAGED PROPERTY, CHARGE

Robert L. Manning, Farmer Living
South of New Salem, Released
on Own Recognizance Today

CHARGE BY FRED HILLIGOSS

Helen Mitchell is Granted Divorce
and Maiden Name is Restored
and Combs Case is Dismissed

Robert L. Manning, a farmer living south of New Salem, was arraigned this morning in circuit court before Judge Sparks on a charge of selling mortgaged property, and his bond was placed at \$500, the court allowing him to go on his own recognizance.

The prosecuting witness in the case is Fred Hilligoss, who charges that Manning was employed by him on his farm and that he secured a mortgage amounting to \$766.93 on two horses, Dan and Ben.

The mortgaged property, according to the affidavit, was sold to Verne Norris, who was unaware of the fact that the property was mortgaged, and in all the total indebtedness on the two valuable animals is said to be \$2,100. The case has not been set for trial.

The court this morning heard the evidence in the divorce case filed recently by Mary Helen Mitchell against Ernest Mitchell, and as the defendant defaulted, after hearing the evidence the court granted the plaintiff a divorce upon payment of the costs.

Judge Sparks also gave the plaintiff her maiden name of Mary Helen Monjar.

One other divorce case filed recently by Bessie Combs of Glenwood against Charles Combs was dismissed and the costs paid.

The court this morning also acted favorably upon a petition filed by Mrs. Leila Gilbert to restore the sanity of Florence Kitchen. The court heard the evidence and the defendant was adjudged a person of sound mind and capable of managing her own affairs.

GOVERNORS DEVOTE ATTENTION TO FARM

Committee at Conference Considers
Credit and Other Problems
Affecting Agriculture

FINANCING IS A PROBLEM

(By United Press)

Harrisburg, Pa., Dec. 2.—The conference of governors today devoted their attention to the problems confronting agriculture throughout the country.

A committee of five appointed to consider the credit market and other conditions affecting the farmers, was expected to report. Governors of Iowa, Louisiana, Indiana, North Carolina and Connecticut composed this committee.

The difficulty of financing the state governments under the present conditions was discussed today at the conference by Governor Sproul of Pennsylvania.

The increased cost of operation as well as the increased demand for state work, high money rates, invasion of federal government for taxes in financing the departments, make the problems increasingly difficult, Sproul said.

The committee of five did not reach an agreement on the agricultural situation and was unable to report at the morning session.

Governor Parker of Louisiana, who addressed the conference on the subject of agriculture, which precipitated the discussion on the gravity of the situation, declared the only way to deal with the question is to encourage the farmer. Parker was in favor of some sort of rural credit plan which would enable the farmer to dispose of his products in foreign markets.

RE-ENLISTS IN THE NAVY

Frank Muir to Join Pacific Fleet at
San Francisco in Ten Days

Frank B. Muir, son of Mr. and Mrs. Ed Muir of this city, joined the navy in Indianapolis Wednesday and will report for duty in ten days. He will be sent to San Francisco to join the Pacific fleet which will leave January 2 for a cruise in South American waters. His enlistment is for a term of two years.

Young Muir served in the navy during the war and was discharged at Pittsburg about fourteen months ago. While in the navy before, he was on the New Mexico and the Idaho, both battleships. Mr. Muir has been employed in the business office of the Daily Republican for several months.

COUNTY TEACHERS TO ELECT ONE DELEGATE

Will Vote Saturday to Select Representative to State Meeting in
Indianapolis in January

WILL DRAFT A CONSTITUTION

When attending the meeting here Saturday of the Sixth District Educational Association, all teachers of Rush county are reminded that they are to remain in the assembly room of the high school building, at which time a vote is to be taken for electing one teacher in the county, who will attend as delegate from Rush county to the meeting of the Indiana State Teachers' association.

The plan is being changed this year, as only delegates will attend the meeting instead of all teachers in the state. The purpose of the meeting will be to draft a constitution for the state association, which will probably include some radical changes.

Each county in the state is entitled to one delegate for each 100 teachers, and as Rush county has 140 teachers, it will be entitled to only one delegate. The meeting Saturday will afford an opportune time to vote on the delegate, although the meeting is not to be held until some time in January.

CHAMPION STEER IS SOLD FOR \$1.75 A POUND

Black Ruler Brings Lower Price
Than Was Paid at International Show Last Year

OTHER SALES BELOW AVREAGE

(By United Press)

Chicago, Ill., Dec. 2.—Beef steak on the hoof sold at \$1.75 a pound here today.

Black Ruler, the champion steer at the International live stock show, was sold at auction today to Wilson and Company, packers, at that price. The steer weighed 1,360 pounds, the price for the animal being more than \$2,300.

The purchase price is the lowest in years paid for an international champion. Last year the champion brought \$2.62 cents a pound. All prices for the champion animals sold at auction here today were under those of last year.

The champions will remain on exhibit for a week and then they will be slaughtered for the Christmas trade.

The champion prices included those paid by Jess C. Andre of Westpoint, Ind., for a ear load of hogs and J. H. Ballard of Marion, Ind., for Hampshires weighing 275 pounds each.

TRUSTEES LIKELY TO BENEFIT BY LAW

Bill Will be Introduced in Legislature to Lengthen Their Terms
Two Years

SCHEME IS NOT A NEW ONE

Both Republicans and Democrats
Have Taken Advantage of Majority to Amend Law

If a bill which is proposed for introduction in the forthcoming session of the state legislature, becomes a law, the twelve township trustees of Rush county will serve two years longer than the term for which they have been elected.

It is reported that the Republican state legislators intend to take advantage of the big majority they will have in the next house and senate to extend the terms of the trustees, the majority of whom are Republicans. The plan is not a new one, having been followed by both Democrats and Republicans when either had a majority in the assembly.

At present there are 1,016 township trustees in Indiana of which 646 are Republicans, 368 Democrats and two doubtful. Under the law as it now stands these trustees will go out of office in 1922, whereas the suggested amendment would keep them in their jobs until 1924. It is too early, of course, to venture any predictions on the attitude of party leaders toward the proposed legislation, but the character of the men behind the movement makes it almost certain that a bill changing the time of the election will be drafted and held in readiness for the opening of the session in January.

Prior to 1897 township trustees were elected in the off-years, that is, the years between those in which presidential elections were held. But in 1897 the law was changed making the elections fall at the same time the presidential elections were held. At that legislative session the Republicans enjoyed a comfortable working majority in both houses with thirty-three Republicans, fourteen Democrats and three Populists in the Senate, and fifty-two Republicans, thirty-nine Democrats, and nine Populists in the house.

The law remained unchanged until 1911 when the Democrats extended the term of incumbents two years, by putting the election back to an off-year, with the result that those whose terms would have expired in 1912 remained in office until 1914. At that session the Democrats mustered thirty votes in the senate to twenty for the Republicans, while

Pupils of the local high school will take part in the musical program.

The ladies of the First Baptist church will serve a big dinner at noon.

Many Vacancies Will Exist in State
Boards in Few Months After
McCray Takes Office

LOCAL MAN AMONG NUMBER

J. L. Cowing's Term is Trustee of
The Eastern Hospital For the
Insane Expires Jan. 1

(By United Press.)

Indianapolis, Ind., Dec. 2.—Thirty-eight political plums are scheduled to be plucked by friends of the Governor-elect Warren T. McCray between January first and June 1, 1921.

These will include the members of the various boards who will retire with Governor Goodrich and appointees whose terms of office expire with the inauguration of Governor McCray.

Three trustees of the state hospitals for the insane are among those who will leave January 1. They are Joseph L. Cowing, Rushville; republican, trustee of the Eastern hospital for the insane, John Napier, Vincennes, progressive, trustee at the Northern Hospital for the Insane, and Joseph L. Bayard, Jr., Vincennes, trustee at the Southern Hospital for the insane.

Two of the most prominent members of the Indiana National Guard prior to the war and also in organizing the militia for the federal muster are also to leave. They are Adjutant General Harry B. Smith, republican, who retires with Governor Goodrich and Quartermaster General Edward F. Otto, Crawfordsville, whose appointment also expires at this time.

John B. Stroll, South Bend, democrat, will be the only member of the Indiana State Prison at Michigan City to leave at this time.

Two members of the state board of education will retire with the coming of the new governor. They are Clarence Williams of Richmond and George R. Cross, Greencastle, who will retire on May 1st.

Marion B. Stutz, Huntington, democrat, will retire from the state board of embalmers, on Jan. 9.

Three members of the school for the Feeble Minded who will retire within this time are Mary Harper, Fort Wayne, a trustee; W. B. Walsh, Frankfort, democrat, a trustee and William P. Keller, Columbus, Republican, also a trustee.

W. R. JINNETT IS AN ACTIVE CANDIDATE

Rush County Representative in the
State Legislature Wants to be
Speaker of House

THREE OTHER CANDIDATES

William R. Jinnett of Manilla representative in the state legislature from Rush county, has been distributing cards in Indianapolis announcing his candidacy for speakership of the house, according to a story in the Indianapolis Star today.

The local representative has been mentioned several times in connection with the speakership, but the Star says that his candidacy has not yet reached the boom stage. There is believed to be some chance of his success, however, as a compromise candidate because the contest is waxing warm.

The three leading candidates for the place are John F. McClure of Anderson, J. D. Miltenberger of Muncie and Clinton H. Givan of Indianapolis. The Marion county delegation in the lower branch of the general assembly met in Indianapolis last night and pledged their support to Givan's candidacy and at a non-partisan meeting in Anderson last night, plans were made to boost the candidacy of Mr. McClure.

FIVE LIVES LOST IN FIRE Blaze Sweeps Through New York Apartment House Today

(By United Press)

New York, Dec. 2.—Five lives were lost today in a fire which swept through an apartment house here. Flames leaped from the cellar to the roof through an airshaft, trapping the victims. Police said the dead included an opera singer and an actress.

Many of those who escaped dashed through the flames. A number of the persons escaped through a door cut through a wall of an adjoining house.

TIME FOR TAKING OFFICE IS CHANGED

Loren Martin Will Not Qualify as
Clerk Until Jan. 1—Other Clerks
Took Office Dec. 1

REASON FOR THE CHANGE

For a score of years, or as far back as anyone has investigated, the clerk of the Rush circuit court has been taking office the first day of December, instead of January 1, as other county officials do.

But this year the difference in the time of qualifying will no longer exist because Loren Martin, clerk-elect, has received his commission which dates from January 1, 1921 to January 1, 1925.

The question was raised a few days ago and Mr. Martin asked a number of county officials about when he should qualify. They began to investigate and found that the clerk had always been taking office December 1, but no one could explain why this situation exists.

But it will be removed this year by reason of the fact that Mr. Martin was appointed clerk when George B. Moore, Jr., resigned August 1, 1919, to serve until his successor qualified and he will not qualify until January 1 because his commission from the secretary of state dates from that time.

WOMAN SAID TO BE HIDING IN MEXICO

Clara Smith Hamon, Wanted in
Connection With Killing of Oil
Magnate, Admits Shooting

TELLS CHAUFFEUR STORY

Ardmore, Oklahoma, Dec. 2.—Eluding the police for more than a week, Mrs. Clara Smith Hamon, wanted here in connection with the fatal shooting of Jake L. Hamon, republican national committeeman and millionaire oil king, today was believed to have crossed into Mexico and taken refuge within 50 miles of El Paso, Texas.

Reports received here indicated that she made her escape in an automobile. The county prosecutor at Dallas, it was said, has received statements from two chauffeurs of Dallas, who said they drove the car for Mrs. Hamon while making her escape.

According to these alleged statements, Mrs. Hamon carried a large sum of money, which one chauffeur estimated at \$10,000. They said she appeared to be very nervous.

In the alleged flight of the missing woman, according to the details in the statement, she carried two revolvers and when a constable scrutinized her closely in El Paso, she pointed one of them at him.

Mrs. Hamon, according to the report, admitted to one of the chauffeurs, E. W. Sallis, of Dallas, that she shot Hamon. "He lied to me," she is alleged to have told him. "We quarrelled during the afternoon. When he came in drunk and tried to make me do things the worse brute would not do, I shot him."

Washington, Dec. 2.—All immigration would be suspended for two years by a bill to be introduced in the house by the immigration committee chairman, Representative Johnson of Washington.

AUTHORIZED TO TRY INTERVENTION

United States, Brazil and Spain
Given Authority by League to
Mediate in Armenian Muddle

WILSON ACCEPTANCE IS READ

League Interprets Article Ten as
Not Guaranteeing Territorial
Integrity of Members

(By United Press)

Washington, Dec. 2.—Adoption of the league of nations may be President Wilson's suggestion to congress as the proper way to right the problems confronting the farmers as regards to foreign prices of agricultural products, it was indicated in the administration quarters today.

The president, it was indicated, considered offering the suggestion in his forthcoming message to congress. Today's intimation was the first time anyone in a position to know would say as to whether the president intended to mention the treaty in his message.

Wilson has on several occasions insisted that the adoption of the league would aid the farmers and it would be a boost to the American foreign trade generally.

Geneva, Switzerland, Dec. 2.—The league of nations today authorized the United States, Brazil and Spain to intervene in Armenia.

The action followed the acceptance by President Wilson and the governments of the other two nations of the league's invitation to mediate between Armenia and the Turkish nationalists.

President Hymans read Wilson's acceptance to the assembly today. As he concluded the reading there was a loud applause. The acceptance of Spain and Brazil was also received with enthusiasm.

The league's interpretation of Article 10, was declared by Lord Cecil today to be that the territorial integrity of member states is not guaranteed.

M. Hymans also proposed that messages of gratitude be sent to Brazil and Spain.

Lord Robert Cecil, representative of the Union of South Africa, said thanks also were due the French delegation, particularly Rene Vivanti whose eloquence, he said, had "inspired this meritorious effort to save Armenia."

NEW CORN KING TO JUDGE LOCAL SHOW

C. E. Troyer of Wabash County
Wins Grand Sweepstakes With
Ten Ear Sample at Chicago

PETER LUX HERE LAST YEAR

When the committees in charge of the Rush county corn show, which will be held in the court house Dec. 29 and 30, selected C. E. Troyer of La Fontaine, Wabash county, Indiana, to judge the corn entered here, they did not know that they were picking the new corn king of the United States.

But that's what they were doing nevertheless, because Mr. Troyer was crowned king at the international hay and grain show in Chicago Wednesday afternoon.

Mr. Troyer is the successor to Peter J. Lux of Shelby county, who acted as judge of the corn show held here last March.

It is probable that the corn king, when he comes to Rushville to judge the local show, will tell something about how he did it and he may be induced to bring his ten championship ears with him.

Watson to Discuss Revenue and Tariff Legislation With Chairman

(By United Press)

Watson is a member of the committee and may be Penrose's lieutenant if the Pennsylvania senator is unable to come to Washington.

Dire Effect of Stuttering.

We, all of us, possess undiscovered gifts. Life's conflicts, especially to those suffering from speech defects, are so tremendous and severe that these gifts are often starved out. The few that have the supreme endurance to keep on and override their handicap to success pay a terrific price for their strain. Many a stutterer begins life as wholesome and optimistic as any of us, but turns crabbed under his sufferings and breaks down nervously at the end.—Exchange.

WAITING FOR US TO SET THE TABLE

A table twenty-four miles long is plainly an extension table and that is just the length that would seat all of the orphans now being fed by the Near East Relief. This table is set in sections all over the hills of Asia Minor, Syria, Armenia and in Northern Persia. It is not in one piece. The Turks, who still keep the Armenians in a state of terror, do not allow it.

But there the table is, seated on both sides with orphans—Syrian and

The Table Is Now 24 Miles Long.

Assyrian, Greek and Armenian, Jew and Christian—all rescued from the fear of the Turk and under the care of American men and women.

Most of the children are cared for in 229 American supported orphanages. The first ceremony in receiving these starved, almost naked children, is to clean them up. They are not only emaciated, but dirty with sores and vermin—69 hospitals and over 6,000 beds are kept full of the little sufferers.

But the children keep changing. Last year they were all thin and pitiful; now it is the newcomers who are thin. The orphans who have been from six months to a year in American care are well fed and well clothed.

Best of all for a new Near East which surely must come out of all this distress, every child old enough is being taught a trade which will make him self supporting.

They are a thrifty lot, these little parentless exiles. From their scant store of bread they always carry a portion in a small bag about their necks—they fear the day of another killing, another drive into the desert.

The Need of the Hour

If you are inclined to be pessimistic as to the future, forget it. The country is in need of something better than pessimism at this time—

and this community is a part of this country.

This is a period of readjustment and reconstruction, and no country can survive such a time without serious disagreements, dissention and confusion.

We are undergoing our share of it now, and there will be more to follow before we can hope to become our normal selves again.

We are but an atom as compared to the whole country, but the welfare of the nation is as sacred to us as it is to the residents of the greatest metropolis in the land.

We should each strive to do our utmost toward stabilizing conditions and restoring commerce to a level where it can be maintained with justice and safety.

Produce—economize—save.

Those are the three paramount requirements of the day. They represent the only manner in which it is possible to continue prosperity without first undergoing a disastrous period of financial and commercial depression.

It is apparent that with a few exceptions the country as a whole

understands and appreciates the situation fairly well, and is disposed to take such action as necessity requires.

Let it be said that we of this community are among those who are patriotically endeavoring to bring order out of confusion—that we have a clear perception of the duty of the hour and a determination to perform that duty.

It is not necessary that we become niggardly in our expenditures, or that we deprive ourselves of any of the necessities or reasonable luxuries of life. The situation does not call for such an extreme.

But produce—economize—save. That means not only the return to a sane commercial standard in the immediate future, but a far greater and better country in the years to come.

What a blessing it is that we have Christmas at least once in a year. We may notice a wonderful improvement about this time of year in the manner in which our buttons are sewed on, and our sox darned, and all of the other little attentions we like so well. It works.

Consular reports tell us that cheap American talcum powders are competing quite successfully with the Japanese article in the Dutch East Indies. That, however, does not prevent its being cheap at twice the price in the U. S. A.

Reports dribble across the border to the effect that Mexico will spend hundreds of thousands of dollars for agricultural machinery to be retailed to Mexican consumers. That is, if they can find the consumers.

A writer of note has stated that the state of Texas, under intensive cultivation, could produce enough foodstuffs to feed the world. Good as far as it goes. But how about the drinks?

The Standard Oil company of Indiana is about to slice a melon amounting to \$12,500,000 and no one doubts but what they have it after seeing gasoline soar as it has.

There is no scarcity of coal in the United States. But who wants to make a mole of himself every time he needs a hod full?

It seems, however, that there is never anything new any more. As soon as it happens 'everybody told you so'.

No woman has a very high opinion of a low salaried man, especially if he happens to be her adoring husband.

Doctors tell us that kissing is dangerous. And it generally is—when it is the other fellows' wife.

As prices come down, perhaps skirts will too.

If you don't use the knowledge you have, it will mould and turn sour.

In order to be a "regular" fellow, you have to do a lot of irregular things.

Here's Where The Fun Comes In

He Took It Literally

What child is it who does not know that age-old threat, "If you don't stop that, I'll give you something to cry for?"

This little boy did. He had been "whining" most of the morning and his mother had warned him several times. Finally she had to use force and son bawled violently.

Just then the delivery boy came in.

"Why sonny, what's the trouble?" he asked.

"Mother gave me something to cry for," he bellowed.

CHRISTMAS HYMN

Sing, Christmas bells!
Say to the earth this is the morn
Whereon our Savior King is born;
Sing to all men—the bond, the free,
The rich, the poor, the high, the low,
The little child that sports in glee,
The aged folk that tottering go—
Proclaim the morn
That Christ is born,
That saveth them and saveth me!

Sing, angel host!
Sing of the stars that God has placed
Above the manger in the east;
Sing of the glories of the night,
The Virgin's sweet humility,
The Babe with kingly robes be-
dight—
Sing to all men where'er they be
This Christmas morn,
For Christ is born,
That saveth them and saveth me!
—Eugene Field.

CHRISTMAS TIMES.

The little boy is talkin' 'bout the toys every day;
Fer he's seen 'em in the winders wher' his mother walked along.
An' "What you goin' to buy me?" is his everlastin' song!

Christmas times in Georgy! jest as sure as fate;
Know it by the little girls that hang aroun' the gate,
Waitin' with a kiss fer me when evenin' comes along;
An' "What you goin' to buy me?" is their everlastin' song!

Christmas times in Georgy! 'Pears to me that they
Are in a powerful hurry for to 'mind you o' the day;
As if the old-time tellers that's lived so mighty long
Didn't know the time o' Christmas 'thout that everlastin' song!

But—thank the Lord, there's some one in the homes aroun' as yet
To kiss us all for Christmas so's we never kin' forget!
An' thank the Lord fer little ones that think the time is long
An' make us young forever with the music o' that song!

Amusements

"Sins of Rosanne," Princess

One of the most extraordinary photoplay plots ever conceived is unfolded in "Sins of Rosanne," starring with Ethel Clayton and to be shown at the Princess theatre today and Friday. The picture was adapted from a story by Cynthia Stockley, well known for her romantic tales of South Africa such as "April Folly," "Blue Aloes," and "The Claw."

The action takes place among the European and native colonies at Kimberley, near the famous diamond mines. Rosanne, the heroine, when an infant and dangerously near death, is taken in charge by a native Malayan woman and not only saved, but imbued with an unquenchable craving for bright stones and the gift of bringing misfortune upon those whom she dislikes. She becomes involved in a diamond smuggling scheme, but is finally rescued by the love that enters her life from the Malay's charm.

Jack Holt is Miss Clayton's leading man in "Sins of Rosanne," and Fred Malatesta plays the "heavy." Tom Forman directed the picture, and it was adapted for the screen by Mary H. O'Connor.

Christmas Circus

Creme paper offers any number of good opportunities for making Christmas gifts, especially for the children. Printed figures of wild, or of domestic animals, are cut out, to make menageries or familiar barnyard friends, that delight the youngsters. The pictures are pasted over stiff cardboard and then cut out, following the outline of the animal, but leaving a straight piece to provide a support.

Times Have Changed.
The celebration of a birthday anniversary, customary among the ancients, was originally frowned upon by the Christians.

Says It First and Says It Last

Carrie G. Harrel, 319 Nicholson St., Norfolk, Va., writes: "I'll tell anybody that Foley's Honey and Tar is all right. It did me all the good, I said it first and I'll say it last." Thousands of bottles of this reliable remedy were bought last week by careful mothers so as to be prepared to check coughs, colds and croup at the beginning. It acts almost instantly, cuts phlegm, soothes raw, irritated membranes, stops tickling in throat. F. B. Johnson.—(Adv.)

IRISH HAVE ARMY OF OVER 300,000

The Volunteer "Irish Republican Army" Now Has Big Membership According to a Report

IN NEED OF AMMUNITION

Sinn Fein Army is Unique in That the Members Pay a Fee to Belong to the Organization

By RUSSELL BROWNING
(U. P. Staff Correspondent)
Dublin, Nov. 18. (By Mail)—The volunteer "Irish Republican Army" now numbers over 300,000 officers and men, according to a statement of a Sinn Fein brigadier-general to the United Press. "Lack of munitions and artillery prevent this force from actively taking the field in uniformed combat with the British military in Ireland", explained the Sinn Fein leader, "but the volunteers will continue to carry out the openly adopted policy of physical resistance to the English Army of Occupation".

How is this organization maintained in a country where every city and village is heavily garrisoned by "hostile" troops, and the country roads bristle with armored cars and military motor lorries? Where do they get their guns and ammunition and how is liaison effected between widely separated units?

It will betray no secrets to answer these questions in a general way, for the facts are no doubt known to the British Army Intelligence. In fact, Sir Hamar Greenwood announced in the House of Commons recently that the entire plans and the names of the leaders were known to the Irish Office.

The Sinn Fein army is unique in that its members actually pay to belong to it instead of receiving any monetary compensation for their services.

A sum of sixpence weekly is paid by each man, officer and soldier alike. No favoritism is shown in the selection of officers, and it is said that there is no single incident of a volunteer refusing to carry out the orders of his superior.

Decentralized authority for local raids and minor offensives by company commanders under the general orders for concerted action of the brigade commander is in effect in all districts, with the exception of the larger cities, where the higher leaders direct all activities. In the

recent conflicts in county Kerry immediately following the death of Lord Mayor MacSwiney, a general offensive was ordered, in retaliation so a Sinn Fein leader told the United Press, for a suddenly intensified activity on the part of the police and military. Eighteen soldiers and policemen were killed in the resultant fighting, and about twenty-five wounded.

Although medical examination is not generally required of recruits for the Sinn Fein forces, a fairly high physical standard is maintained. Volunteers who are judged to be unfit for active service are utilized in the finely developed intelligence department, or consigned to duty on the civil detective and police force, although full-fledged members are also used in this work.

Each company is intrusted with the task of securing their own arms and in most cases funds with which to carry out their various missions. Sinn Fein has large funds, and in the words of a prominent business man of Cork, "can get more where that comes from"—namely, popular subscription to the recent "Irish Republican Loan" and funds raised by various Irish societies, but a big expense is entailed in caring for the families of men in jail or who are fleeing from the British authorities.

When a company of Sinn Fein volunteers is seen directing a crowd or functioning in any way an observer is struck with their discipline and familiarity with drill manual. The exact drilling places are closely guarded, but it is still difficult to understand how they are able to receive training of this kind at all in a land that is said to be flooded with British "spies". Requested information on this subject of a high Sinn Fein leader. Accordingly a promise was made to show how it was accomplished, but for obvious reasons no engagement was set and the manner in which I would be shown was left in the dark.

The Sonora is noted most for its exquisite tone. A jury of competent and unbiased musicians, testing all makes of phonographs at the Panama-Pacific exposition, recommended that the Sonora be given a higher marking for tone than that given to any other phonograph. ANNOUNCE WINTER RELIEF PROGRAM

Approximately 338 Tons of U. S. Food to be Given Each Week to Austrian Children Under Age 17

HOOVER MAKES STATEMENT

Extent of Malnutrition in Austria is Sufficient to Menace Future of Entire Generation

Chicago, Ill., Dec. 2—Approximately 338 tons of American food to be turned each week into the nourishment of 300,000 Austrian children under the age of seventeen, is the program that must be followed during the coming winter by the American Relief Administration European Children's Fund if wholesale starvation is not to result. This was the announcement made yesterday by Herbert Hoover at the Fund headquarters, 42 Broadway.

The extent of the malnutrition in Austria is sufficient to menace the future of an entire generation, Mr. Hoover said. According to most recent estimates ninety-six percent or 327,000 of the children in the city of Vienna alone are seriously undernourished.

At the present time, the American Relief Administration by its system of food kitchens is able to feed seventy-three percent of the badly undernourished in Austria, including practically all of the most seriously starved of the school children. Only twenty-five percent of the children between three and six who are badly in need of food have been reached, while no attempt has been made to feed babies under three years. The Fund has exceeded its usual age limit of fourteen, however in the case of nearly 10,000 boys and girls between fifteen and seventeen, the age where tuberculosis is most prevalent and most likely to be fatal.

The noon meal served each day at the American food kitchens is intended only as a supplementary meal. Investigation last winter showed that nearly seven percent of the children in the poorer districts of Vienna had no other food.

The American Relief Administration program of child feeding, similar to the rationing system worked out by the Commission for Relief in Belgium, is also in operation in Poland, Czechoslovakia and Hungary. The first kitchens were opened shortly after the Armistice with the anticipation that American support might be withdrawn with the arrival of the harvests of 1920, leaving the local committees to carry on the work alone. Economic rehabilitation has been slower than anticipated, and the kitchens must be maintained for another year. Mr. Hoover in his first public appeal for the child feeding work, estimates that \$23,000,000 will be sufficient to keep alive 3,500,000 of the most seriously undernourished until August 1921.

COURT SETTLES THE CHILD'S PARENTAGE

Two Year Old Baby is Given Over to its Rightful Father, in a Case at Evansville

TWO MEN LAY CLAIM TO IT

Evansville, Ind., Dec. 2—While two year old baby Blanche sat in the court dias, playing with his trouser leg, Judge Lockyear, in probate court decided a written statement daddy of the child in the future years.

By refusing to order the surrender of the child by Clarence Dilley, lawful father of the child, to Roy Hall through Hall's habeas corpus suit, the judge gave the child to Dilley.

Hall declared he was the father of the child and that the babies mother had made a written statement on her deathbed, to that effect.

Mrs. Dilley's mother, however, produced later evidence near the close of the trial, that the mother made the dying statement giving the child to Dilley. Hall contended that he became father of the child while Dilley was away trying to evade the draft.

EVERYONE SHOULD GET MARRIED WHEN YOUNG

Assertion of P. V. Jones Who is 83 Years Young and Has Been Married 63 Years

FATHER OF TEN CHILDREN

New Castle, Pa., Dec. 2.—Every one should get married, and when young, make their fortunes together and be a help to each other. It is the only way in which one can go through life happy.

Take it from Philip V. Jones, boys and girls, that's the one sure recipe of lifelong bliss. And Jones ought to know, 83 years young, married 63 years and as much in love with Mrs. Jones as the day they were married in 1857 with all the gorgeousness and splendor of a church wedding in South Wales, their birthplace. Mrs. Jones is one year younger than her husband.

In 1863 the couple came to America and settled in New Castle. After that, "we worked hard and played hard," said "Ma" Jones. "I have come through 63 years of married life and would not give up one of my joys or sorrows and there have been many of them. I urge every girl to pick out the right man and marry him.

"I should say the women do pick out the men," with a little grin at "pa." "The men never know what's happening to them."

The couple are the parents of ten children.

ASKS SUPPORT OF 108 ASSOCIATIONS

To Present Legislation at General Assembly to Make State Better For Hunting and Fishing

LOOKING FOR ADVICE

Urges Public Sentiment be Aroused For Better Protective Legislation of Indiana

Indianapolis, Ind., Dec. 2.—Officers and members of 108 fish and game protective associations are appealed to for support of legislation to be presented at the session of the General Assembly in January, to make Indiana a better state for hunting and fishing, by George N. Mannfeld, superintendent of the division of fish and game of the state department of conservation in letters to these associations this month.

Mr. Mannfeld points out that concerted and cooperative action is necessary if Indiana is to continue to progress toward the conservation of the limited amount of wild life remaining. "We are looking for advice and suggestions for improving the work of the fish and game division. You may have a thought or an idea that we have entirely overlooked. Let us assure you that we entertain no idea of 'knowing it all,' he says.

"The absolute need of protecting fish, game and birds has long been discussed in the public press and otherwise, especially protection to birds on account of their great economic value to the farmer", the letter reads. "Therefore one would naturally suppose that the movement for their protection originated with the land owner. Strange as it may seem however, such has not been the case. On the contrary, the organized sportsmen in the larger towns and cities were among the first to start a campaign for game, fish and bird protection. Stranger still, the opposition came from the members selected to represent rural or farming districts, the stock argument of those legislators being that game and fish laws were intended for the benefit of the city sportsmen at the expense of the rights of the farmers. Such is not the case and opposition on the old ground will likely be in evidence at the coming Legislature unless a better understanding exists.

"Fortunately now the landowner or tenant looks upon game and fish protection as a necessity. There can be no doubt that the bulk of the people in the State now favor the protection of fish, game, birds and fur-bearing animals, but it has come after the greater part of such resources have been sadly decimated. It seems to be the tendency of human nature to overlook and undervalue the blessings we enjoy. Not until they have passed away do we realize what has been lost."

Mr. Mannfeld urges that public sentiment be aroused to the vital necessity for better protective legislation or Indiana in a few years will be without fish in her waters and game in her remnants of forests and a revenue that could be made return thousands of dollars will be lost while the public generally will lose far more through lack of recreation and sport conducive to good health.

J. FAUST ELECTED TO A JUDGESHIP

Spent Greater Part of His Political Campaign in Hospital Recovering From Wounds

HE SERVED WITH THE FRENCH

Detroit, Mich., Dec. 2.—Although he spent the greater part of his political campaign in the hospital, suffering from wounds received at the Second battle of the Marne, John Faust, a member of Charles A. Learned Post No. 1, of the American Legion here, was elected to a judgeship on the Recorders' Court bench in the recent elections. Judge Faust ran second among the five judges selected.

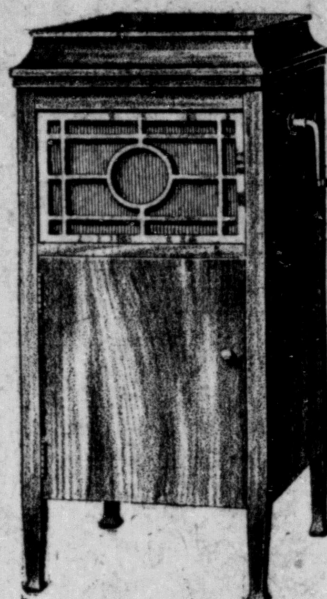

Judge Faust served overseas with the French at Verdun and later with the 18th Infantry. He was in the Marine Hospital receiving treatment at the time of the primary election at which he was nominated on the non-partisan ticket. When members of the American Legion learned of his candidacy, they carried on an active campaign in his behalf.

SELLS MORTGAGED PROPERTY, CHARGE

Robert L. Manning, Farmer Living South of New Salem, Released on Own Recognizance Today

CHARGE BY FRED HILLIGOSS

Helen Mitchell is Granted Divorce and Maiden Name is Restored and Combs Case is Dismissed

Robert L. Manning, a farmer living south of New Salem, was arraigned this morning in circuit court before Judge Sparks on a charge of selling mortgaged property, and his bond was placed at \$500, the court allowing him to go on his own recognizance.

The prosecuting witness in the case is Fred Hilligoss, who charges that Manning was employed by him on his farm and that he secured a mortgage amounting to \$766.93 on two horses, Dan and Ben.

The mortgaged property, according to the affidavit, was sold to Verne Norris, who was unaware of the fact that the property was mortgaged, and in all the total indebtedness on the two valuable animals is said to be \$2,100. The case has not been set for trial.

The court this morning heard the evidence in the divorce case filed recently by Mary Helen Mitchell against Ernest Mitchell, and as the defendant defaulted, after hearing the evidence the court granted the plaintiff a divorce upon payment of the costs.

Judge Sparks also gave the plaintiff her maiden name of Mary Helen Monjar.

One other divorce case filed recently by Bessie Combs of Glenwood against Charles Combs was dismissed and the costs paid.

The court this morning also acted favorably upon a petition filed by Mrs. Leila Gilbert to restore the sanity of Florence Kitchen. The court heard the evidence and the defendant was adjudged a person of sound mind and capable of managing her own affairs.

GOVERNORS DEVOTE ATTENTION TO FARM

Committee at Conference Considers Credit and Other Problems Affecting Agriculture

FINANCING IS A PROBLEM

(By United Press)
Harrisburg, Pa., Dec. 2.—The conference of governors today devoted their attention to the problems confronting agriculture throughout the country.

A committee of five appointed to consider the credit market and other conditions affecting the farmers, was expected to report. Governors of Iowa, Louisiana, Indiana, North Carolina and Connecticut composed this committee.

The difficulty of financing the state governments under the present conditions was discussed today at the conference by Governor Sprout of Pennsylvania.

The increased cost of operation as well as the increased demand for state work, high money rates, invasion of federal government for taxes in financing the departments, make the problems increasingly difficult, Sprout said.

The committee of five did not reach an agreement on the agricultural situation and was unable to report at the morning session.

Governor Parker of Louisiana, who addressed the conference on the subject of agriculture, which recapitulated the discussion on the gravity of the situation, declared the only way to deal with the question is to encourage the farmer. Parker was in favor of some sort of rural credit plan which would enable the farmer to dispose of his products in foreign markets.

RE-ENLISTS IN THE NAVY

Frank Muir to Join Pacific Fleet at San Francisco in Ten Days

Frank B. Muir, son of Mr. and Mrs. Ed Muire of this city, joined the navy in Indianapolis Wednesday and will report for duty in ten days. He will be sent to San Francisco to join the Pacific fleet which will leave January 2 for a cruise in South American waters. His enlistment is for a term of two years.

Young Muir served in the navy during the war and was discharged at Pittsburgh about fourteen months ago. While in the navy before, he was on the New Mexico and the Idaho, both battleships. Mr. Muir has been employed in the business office of the Daily Republican for several months.

COUNTY TEACHERS TO ELECT ONE DELEGATE

Will Vote Saturday to Select Representative to State Meeting in Indianapolis in January

WILL DRAFT A CONSTITUTION

When attending the meeting here Saturday of the Sixth District Educational Association, all teachers of Rush county are reminded that they are to remain in the assembly room of the high school building, at which time a vote is to be taken for electing one teacher in the county, who will attend as delegate from Rush county to the meeting of the Indiana State Teachers' association.

The plan is being changed this year, as only delegates will attend the meeting instead of all teachers in the state. The purpose of the meeting will be to draft a constitution for the state association, which will probably include some radical changes.

Each county in the state is entitled to one delegate for each 100 teachers, and as Rush county has 140 teachers, it will be entitled to only one delegate. The meeting Saturday will afford an opportune time to vote on the delegate, although the meeting is not to be held until some time in January.

Chicago, Ill., Dec. 2.—Beef steak on the hoof sold at \$1.75 a pound here today.

Black Ruler, the champion steer at the International live stock show, was sold at auction today to Wilson and Company, packers, at that price. The steer weighed 1,360 pounds, the price for the animal being more than \$2,300.

The purchase price is the lowest in years paid for an international champion. Last year the champion brought \$2.62 cents a pound. All prices for the champion animals sold at auction here today were under those of last year.

The champions will remain on exhibit for a week and then they will be slaughtered for the Christmas trade.

The champion prices included those paid by Jess C. Andre of Westpoint, Ind., for a ear load of hogs and J. H. Ballard of Marion, Ind., for Hampshires weighing 275 pounds each.

TRUSTEES LIKELY TO BENEFIT BY LAW

Bill Will be Introduced in Legislature to Lengthen Their Terms Two Years

SCHEME IS NOT A NEW ONE

Both Republicans and Democrats Have Taken Advantage of Majority to Amend Law

If a bill which is proposed for introduction in the forthcoming session of the state legislature, becomes a law, the twelve township trustees of Rush county will serve two years longer than the term for which they have been elected.

It is reported that the Republican state legislators intend to take advantage of the big majority they will have in the next house and senate to extend the terms of the trustees, the majority of whom are Republicans. The plan is not a new one, having been followed by both Democrats and Republicans when either had a majority in the assembly.

At present there are 1,016 township trustees in Indiana of which 646 are Republicans, 368 Democrats and two doubtful. Under the law as it now stands these trustees will go out of office in 1922, whereas the suggested amendment would keep them in their jobs until 1924. It is too early, of course, to venture any predictions on the attitude of party leaders toward the proposed legislation, but the character of the men behind the movement makes it almost certain that a bill changing the time of the election will be drafted and held in readiness for the opening of the session in January.

Prior to 1897 township trustees were elected in the off-years, that is, the years between those in which presidential elections were held. But in 1897 the law was changed making the elections fall at the same time the presidential elections were held. At that legislative session the Republicans enjoyed a comfortable working majority in both houses with thirty-three Republicans, fourteen Democrats and three Populists in the Senate, and fifty-two Republicans, thirty-nine Democrats, and nine Populists in the house.

The law remained unchanged until 1911 when the Democrats extended the term of incumbents two years, by putting the election back to an off-year, with the result that those whose terms would have expired in 1912 remained in office until 1914. At that session the Democrats mustered thirty votes in the senate to twenty for the Republicans, while

Pupils of the local high school will take part in the musical program.

The ladies of the First Baptist church will serve a big dinner at noon.

NEW GOVERNOR HAS 38 PLUMS TO PASS

Many Vacancies Will Exist in State Boards in Few Months After McCray Takes Office

LOCAL MAN AMONG NUMBER

J. L. Cowing's Term is Trustee of The Eastern Hospital For the Insane Expires Jan. 1

(By United Press)
Indianapolis, Ind., Dec. 2.—Thirty-eight political plums are scheduled to be plucked by friends of the Governor-elect Warren T. McCray between January first and June 1, 1921.

These will include the members of the various boards who will retire with Governor Goodrich and appointees whose terms of office expire with the inauguration of Governor McCray.

Three trustees of the state hospitals for the insane are among those who will leave January 1. They are Joseph L. Cowing, Rushville; republican, trustee of the Eastern hospital for the insane, John Napier, Vincennes, progressive, trustee at the Northern Hospital for the Insane, and Joseph L. Bayard, Jr., Vincennes, trustee at the Southern Hospital for the insane.

Two of the most prominent members of the Indiana National Guard prior to the war and also in organizing the militia for the federal muster are also to leave. They are Adjutant General Harry B. Smith, republican, who retires with Gov. Goodrich and Quartermaster General Edward F. Otto, Crawfordsville, whose appointment also expires at this time.

John B. Stroll, South Bend, democrat, will be the only member of the Indiana State Prison at Michigan City to leave at this time.

Two members of the state board of education will retire with the coming of the new governor. They are Clarence Williams of Richmond and George R. Cross, Greencastle, who will retire on May 1st.

Marion B. Stutz, Huntington, democrat, will retire from the state board of embalmers, on Jan. 9.

Three members of the school for the Feeble Minded who will retire within this time are Mary Harper, Fort Wayne, a trustee; W. B. Walsh, Frankfort, democrat, a trustee and William P. Keller, Columbus, Republican, also a trustee.

Hugh A. Cowing, Muncie, Republican member of the State Board of Health will retire April 14.

W. R. JINNETT IS AN ACTIVE CANDIDATE

Rush County Representative in the State Legislature Wants to be Speaker of House

THREE OTHER CANDIDATES

William R. Jinnett of Manilla representative in the state legislature from Rush county, has been distributing cards in Indianapolis announcing his candidacy for speakership of the house, according to a story in the Indianapolis Star today.

The local representative has been mentioned several times in connection with the speakership, but the Star says that his candidacy has not yet reached the boom stage. There is believed to be some chance of his success, however, as a compromise candidate because the contest is waxing warm.

The three leading candidates for the place are John F. McClure of Anderson, J. D. Mittenberger of Muncie and Clinton H. Givan of Indianapolis. The Marion county delegation in the lower branch of the general assembly met in Indianapolis last night and pledged their support to Givan's candidacy and at a non-partisan meeting in Anderson last night, plans were made to boost the candidacy of Mr. McClure.

FIVE LIVES LOST IN FIRE

Blaze Sweeps Through New York Apartment House Today

(By United Press)
New York, Dec. 2.—Five lives were lost today in a fire which swept through an apartment house here. Flames leaped from the cellar to the roof through an airshaft, trapping the victims. Police said the dead included an opera singer and an actress.

Many of those who escaped dashed through the flames. A number of the persons escaped through a door cut through a wall of an adjoining house.

TIME FOR TAKING OFFICE IS CHANGED

Loren Martin Will Not Qualify as Clerk Until Jan. 1—Other Clerks Took Office Dec. 1

REASON FOR THE CHANGE

For a score of years, or as far back as anyone has investigated, the clerk of the Rush circuit court has been taking office the first day of December, instead of January 1, as other county officials do.

But this year the difference in the time of qualifying will no longer exist because Loren Martin, clerk-elect, has received his commission which dates from January 1, 1921 to January 1, 1925.

The question was raised a few days ago and Mr. Martin asked a number of county officials about when he should qualify. They began to investigate and found that the clerk had always been taking office December 1, but no one could explain why this situation exists.

But it will be removed this year by reason of the fact that Mr. Martin was appointed clerk when George B. Moore, Jr., resigned August 1, 1919, to serve until his successor qualified and he will not qualify until January 1 because his commission from the secretary of state dates from that time.

WOMAN SAID TO BE HIDING IN MEXICO

Clara Smith Hamon, Wanted in Connection With Killing of Oil Magnate, Admits Shooting

TELLS CHAUFFEUR STORY

Ardmore, Oklahoma, Dec. 2.—Eluding the police for more than a week, Mrs. Clara Smith Hamon, wanted here in connection with the fatal shooting of Jake L. Hamon, republican national committeeman and millionaire oil king, today was believed to have crossed into Mexico and taken refuge within 50 miles of El Paso, Texas.

Reports received here indicated that she made her escape in an automobile. The county prosecutor at Dallas, it was said, has received statements from two chauffeurs of Dallas, who said they drove the car for Mrs. Hamon while making her escape.

According to these alleged statements, Mrs. Hamon carried a large sum of money, which one chauffeur estimated at \$10,000. They said she appeared to be very nervous.

In the alleged flight of the missing woman, according to the details in the statement, she carried two revolvers and when a constable scrutinized her closely in El Paso, she pointed one of them at him.

Mrs. Hamon, according to the report, admitted to one of the chauffeurs, E. W. Sallis, of Dallas, that she shot Hamon. "He lied to me," she is alleged to have told him. "We quarrelled during the afternoon. When he came in drunk and tried to make me do things the worse brute would not do, I shot him."

AUTHORIZED TO TRY INTERVENTION

United States, Brazil and Spain Given Authority by League to Mediate in Armenian Muddle

WILSON ACCEPTANCE IS READ

League Interprets Article Ten as Not Guaranteeing Territorial Integrity of Members

(By United Press)

Washington, Dec. 2.—Adoption of the league of nations may be President Wilson's suggestion to congress as the proper way to right the problems confronting the farmers as regards to foreign prices of agricultural products, it was indicated in the administration quarters today.

The president, it was indicated, considered offering the suggestion in his forthcoming message to congress. Today's intimation was the first time anyone in a position to know would say as to whether the president intended to mention the treaty in his message.

Wilson has on several occasions insisted that the adoption of the league would aid the farmers and it would be a boost to the American foreign trade generally.

Geneva, Switzerland, Dec. 2.—The league of nations today authorized the United States, Brazil and Spain to intervene in Armenia.

The action followed the acceptance by President Wilson and the governments of the other two nations of the league's invitation to mediate between Armenia and the Turkish nationalists.

President Hymans read Wilson's acceptance to the assembly today. As he concluded the reading there was a loud applause. The acceptance of Spain and Brazil was also received with enthusiasm.

The league's interpretation of Article 10, was declared by Lord Cecil today to be that the territorial integrity of member states is not guaranteed.

M. Hymans also proposed that messages of gratitude be sent to Brazil and Spain.

Lord Robert Cecil, representative of the Union of South Africa, said thanks also were due the French delegation, particularly Rene Viviani whose eloquence, he said, had inspired this meritorious effort to save Armenia.

NEW CORN KING TO JUDGE LOCAL SHOW

C. E. Troyer of Wabash County Wins Grand Sweepstakes With Ten Ear Sample at Chicago

PETER LUX HERE LAST YEAR

When the committees in charge of the Rush county corn show, which will be held in the court house Dec. 29 and 30, selected C. E. Troyer of La Fontaine, Wabash county, Indiana, to judge the corn entered here, they did not know that they were picking the new corn king of the United States.

But that's what they were doing nevertheless, because Mr. Troyer was crowned king at the international hay and grain show in Chicago Wednesday afternoon.

Mr. Troyer is the successor to Peter J. Lux of Shelby county, who acted as judge of the corn show held here last March.

It is probable that the corn king, when he comes to Rushville to judge the local show, will tell something about how he did it and he may be induced to bring his ten championship ears with him.

Dire Effect of Stuttering.
We, all of us, possess undiscovered gifts. Life's conflicts, especially to those suffering from speech defects, are so tremendous and severe that these gifts are often starved out. Many a stammerer begins life as wholesome and optimistic as any of us, but turns crabbed under his sufferings and breaks down nervously at the end.—Exchange.

WAITING FOR US TO SET THE TABLE

A table twenty-four miles long is plainly an extension table and that is just the length that would seat all of the orphans now being fed by the Near East Relief. This table is set in sections all over the hills of Asia Minor, Syria, Armenia and in Northern Persia. It is not in one piece. The Turks, who still keep the Armenians in a state of terror, do not allow it.

But there the table is, seated on both sides with orphans—Syrian and

The Table is Now 24 Miles Long.

Assyrian, Greek and Armenian, Jew and Christian—all rescued from the fear of the Turk and under the care of American men and women.

Most of the children are cared for in 229 American supported orphanages. The first ceremony in receiving these starved, almost naked children, is to clean them up. They are not only emaciated, but dirty with sores and vermin—69 hospitals and over 6,000 beds are kept full of the little sufferers.

But the children keep changing. Last year they were all thin and pitiful; now it is the newcomers who are thin. The orphans who have been from six months to a year in American care are well fed and well clothed.

Best of all for a new Near East which surely must come out of all this distress, every child old enough is being taught a trade which will make him self supporting.

They are a thrifty lot, these little parentless exiles. From their scant store of bread they always carry a portion in a small bag about their necks—they fear the day of another killing, another drive into the desert.

The Need of the Hour

If you are inclined to be pessimistic as to the future, forget it. The country is in need of something better than pessimism at this time—

and this community is a part of this country.

This is a period of readjustment and reconstruction, and no country can survive such a time without serious disagreements, dissension and confusion.

We are undergoing our share of it now, and there will be more to follow before we can hope to become our normal selves again.

We are but an atom as compared to the whole country, but the welfare of the nation is as sacred to us as it is to the residents of the greatest metropolis in the land.

We should each strive to do our utmost toward stabilizing conditions and restoring commerce to a level where it can be maintained with justice and safety.

Produce—economize—save.

Those are the three paramount requirements of the day. They represent the only manner in which it is possible to continue prosperity without first undergoing a disastrous period of financial and commercial depression.

It is apparent that with a few exceptions the country as a whole

understands and appreciates the situation fairly well, and is disposed to take such action as necessity requires.

Let it be said that we of this community are among those who are patriotically endeavoring to bring order out of confusion—that we have a clear perception of the duty of the hour and a determination to perform that duty.

It is not necessary that we become niggardly in our expenditures, or that we deprive ourselves of any of the necessities or reasonable luxuries of life. The situation does not call for such an extreme.

But produce—economize—save.

That means not only the return to a sane commercial standard in the immediate future, but a far greater and better country in the years to come.

What a blessing it is that we have Christmas at least once in a year. We men notice a wonderful improvement about this time of year in the manner in which our buttons are sewed on, and our socks darned, and all of the other little attentions we like so well. It works.

Consular reports tell us that cheap American talcum powders are competing quite successfully with the Japanese article in the Dutch East Indies. That, however, does not prevent its being cheap at twice the price in the U. S. A.

Reports dribble across the border to the effect that Mexico will spend hundreds of thousands of dollars for agricultural machinery to be retailed to Mexican consumers. That is, if they can find the consumers.

A writer of note has stated that the state of Texas, under intensive cultivation, could produce enough foodstuffs to feed the world. Good as far as it goes. But how about the drinks?

The Standard Oil company of Indiana is about to slice a melon amounting to \$12,500,000 and no one doubts but what they have it after seeing gasoline soar as it has.

There is no scarcity of coal in the United States. But who wants to make a mole of himself every time he needs a hod full?

It seems, however, that there is never anything new any more. As soon as it happens 'everybody told you so'.

No woman has a very high opinion of a low salaried man, especially if he happens to be her adoring husband.

Doctors tell us that kissing is dangerous. And it generally is—when it is the other fellows' wife.

He Took It Literally

What child is it who does not know that age-old threat, "If you don't stop that, I'll give you something to cry for?"

This little boy did. He had been "whining" most of the morning and his mother had warned him several times. Finally she had to use force and son bawled violently.

Just then the delivery boy came in.

"Why sonny, what's the trouble?" he asked.

"Mother gave me something to cry for," he bellowed.

CHRISTMAS HYMN

Sing, Christmas bells!

Say to the earth this is the morn

Whereon our Savior King is born;

Sing to all men—the bond, the free,

The rich, the poor, the high, the low,

The little child that sports in glee,

The aged folk that tottering go—

Proclaim the morn

That Christ is born,

That saveth them and saveth me!

Sing, angel host!

Sing of the stars that God has placed

Above the manger in the east;

Sing of the glories of the night—

The Virgin's sweet humility,

The Babe with kingly robes be-dight—

Sing to all men where'er they be

This Christmas morn,

For Christ is born,

That saveth them and saveth me!

CHRISTMAS HYMN

Sing, Christmas bells!

Say to the earth this is the morn

Whereon our Savior King is born;

Sing to all men—the bond, the free,

The rich, the poor, the high, the low,

The little child that sports in glee,

The aged folk that tottering go—

Proclaim the morn

That Christ is born,

That saveth them and saveth me!

Sing, angel host!

Sing of the stars that God has placed

Above the manger in the east;

Sing of the glories of the night—

The Virgin's sweet humility,

The Babe with kingly robes be-dight—

Sing to all men where'er they be

This Christmas morn,

For Christ is born,

That saveth them and saveth me!

—Eugene Field.

CHRISTMAS TIMES.

Christmas times in Georgy! know it by the way

The little boy is talkin' 'bout the toys

every day;

For he's seen 'em in the window where his mother walked along.

An' "What you goin' to buy me?" is his everlastin' song!

Christmas times in Georgy! jest as sure as fate;

Know it by the little girls that hang 'round the gate,

Waitin' with a kiss for me when 'evenin' comes along.

An' "What you goin' to buy me?" is their everlastin' song!

Christmas times in Georgy! 'Pears to me that they

Are in a powerful hurry for to 'mind you o' the day;

As if the old-time fellers that's lived so mighty long

Didn't know the time o' Christmas 'bout that everlastin' song!

But, thank the Lord, the time is long in the 'honesty' 'bout 'em

To kiss us all for Christmas so's we never kin' forget!

An' thank the Lord for little ones that think the time is long

An' make us young forever with the music o' that song!

Amusements

"Sins of Rosanne," Princess

One of the most extraordinary photoplay plots ever conceived is unfolded in "Sins of Rosanne," carrying with Ethel Clayton and to be shown at the Princess theatre today and Friday. The picture was adapted from a story by Cynthia Stockley, well known for her romantic tales of South Africa such as "April Folly," "Blue Aloes," and "The Claw."

The action takes place among the European and native colonies at Kimberley, near the famous diamond mines. Rosanne, the heroine, then an infant and dangerously near death, is taken in charge by a native Malayan woman and not only saved, but imbued with an unquenchable craving for bright stones and the gift of bringing misfortune upon those whom she dislikes. She becomes involved in a diamond smuggling scheme, but is finally rescued by the love that enters her life from the Malay's charm.

Jack Holt is Miss Clayton's leading man in "Sins of Rosanne," and Fred Malatesta plays the "heavy." The picture is directed by the picture, and it was adapted for the screen by Mary H. O'Connor.

IRISH HAVE ARMY

The Volunteer "Irish Republican Army" Now Has Big Membership According to a Report

IN NEED OF AMMUNITION

Sinn Fein Army is Unique in That the Members Pay a Fee to Belong to the Organization

By RUSSELL BROWNING
(U.P. Staff Correspondent)
Dublin, Nov. 18. (By Mail)—The volunteer "Irish Republican Army" now numbers over 300,000 officers and men, according to a statement of a Sinn Fein brigadier-general to the United Press. "Lack of munitions and artillery prevent this force from actively taking the field in uniformed combat with the British military in Ireland", explained the Sinn Fein leader, "but the volunteers will continue to carry out the openly adopted policy of physical resistance to the English Army of Occupation".

How is this organization maintained in a country where every city and village is heavily garrisoned by "hostile" troops, and the country roads bristle with armored cars and military motor lorries? Where do they get their guns and ammunition and how is liaison effected between widely separated units?

It will betray no secrets to answer these questions in a general way, for the facts are no doubt known to the British Army Intelligence. In fact, Sir Hamar Greenwood announced in the House of Commons recently that the entire plans and the names of the leaders were known to the Irish Office.

The Sinn Fein army is unique in that its members actually pay to belong to it instead of receiving any monetary compensation for their services.

A sum of sixpence weekly is paid by each man, officer and soldier alike. No favoritism is shown in the selection of officers, and it is said that there is no single incident of a volunteer refusing to carry out the orders of his superior.

Decentralized authority for local raids and minor offensives by company commanders under the general orders for concerted action of the brigade commander is in effect in all districts, with the exception of the larger cities, where the higher leaders direct all activities. In the

recent conflicts in county Kerry immediately following the death of Lord Mayor MacSwiney, a general offensive was ordered, in retaliation so a Sinn Fein leader told the United Press, for a suddenly intensified activity on the part of the police and military. Eighteen soldiers and policemen were killed in the resultant fighting, and about twenty-five wounded.

Although medical examination is not generally required of recruits for the Sinn Fein forces, a fairly high physical standard is maintained. Volunteers who are judged to be unfit for active service are utilized in the finely developed intelligence department, or consigned to duty on the civil detective and police force, although full-fledged members are also used in this work.

Each company is intrusted with the task of securing their own arms and in most cases funds with which to carry out their various missions. Sinn Fein has large funds, and in the words of a prominent business man of Cork, "can get more where that comes from"—namely, popular subscription to the recent "Irish Republican Loan" and funds raised by various Irish societies, but a big expense is entailed in caring for the families of men in jail or who are fleeing from the British authorities.

When a company of Sinn Fein volunteers is seen directing a crowd or functioning in any way an observer is struck with their discipline and familiarity with drill manual. The exact drilling places are closely guarded, but it is still difficult to understand how they are able to receive training of this kind at all in a land that is said to be flooded with British "spies". Requested information on this subject of a high Sinn Fein leader. Accordingly a promise was made to show how it was accomplished, but for obvious reasons no engagement was set and the manner in which I would be shown was left in the dark.

The Sonora is noted most for its exquisite tone. A jury of competent and unbiased musicians, testing all makes of phonographs at the Panama-Pacific exposition, recommended that the Sonora be given a higher marking for tone than that given to any other phonograph. Coincident With Inauguration of General Obregon a Plot is Developing in Mexico

REPORT SENT TO WASHINGTON

Washington, Dec. 2.—Coincident with the inauguration of President Alvaro Obregon of Mexico it was said at the state department today that reports had been received on the conspiracy against the new government.

The state department is investigating the report, officials said, and is closely watching developments in the Mexican situation.

The plotting against Obregon was said to have its inception on the Mexican border. Reports to the department were incomplete and for this reason officials refused to reveal all the information that had been received.

According to state department ad-

ministration of Lester Sisler, former secretary of the shipping board, the congressional investigating committee, closed its hearing here Wednesday. The meeting adjourned to convene again in Washington at the call of Chairman Walsh.

Sisler testified he was unable to get along with Chairman Hurley, head of the shipping board at that time and after some dispute he resigned. He said the government suffered losses that could have been avoided in the awarding of contracts.

ANNOUNCE WINTER RELIEF PROGRAM

Approximately 338 Tons of U. S. Food to be Given Each Week to Austrian Children Under Age 17

HOOVER MAKES STATEMENT

Extent of Malnutrition in Austria is Sufficient to Menace Future of Entire Generation

Chicago, Ill., Dec. 2—Approximately 338 tons of American food to be turned each week into the nourishment of 300,000 Austrian children under the age of seventeen, is the program that must be followed during the coming winter by the American Relief Administration European Children's Fund if wholesale starvation is not to result. This was the announcement made yesterday by Herbert Hoover at the Fund headquarters, 42 Broadway.

The extent of the malnutrition in Austria is sufficient to menace the future of an entire generation, Mr. Hoover said. According to most recent estimates ninety-six percent or 327,000 of the children in the city of Vienna alone are seriously undernourished.

At the present time, the American Relief Administration by its system of food kitchens is able to feed seventy-three percent of the badly undernourished in Austria, including practically all of the most seriously starved of the school children. Only twenty-five percent of the children between three and six who are badly in need of food have been reached, while no attempt has been made to feed babies under three years. The Fund has exceeded its usual age limit of fourteen, however in the case of nearly 10,000 boys and girls between fifteen and seventeen, the age where tuberculosis is most prevalent and most likely to be fatal.

The noon meal served each day at the American food kitchens is intended only as a supplementary meal. Investigation last winter showed that nearly seven percent of the children in the poorer districts of Vienna had no other food.

The American Relief Administration program of child feeding, similar to the rationing system worked out by the Commission for Relief in Belgium, is also in operation in Poland, Czechoslovakia and Hungary. The first kitchens were opened shortly after the Armistice with the anticipation that American support might be withdrawn with the arrival of the harvests of 1920, leaving the local committees to carry on the work alone. Economic rehabilitation has been slower than anticipated, and the kitchens must be maintained for another year. Mr. Hoover in his first public appeal for the child feeding work, estimates that \$23,000,000 will be sufficient to keep alive 3,500,000 of the most seriously undernourished until August 1921.

COURT SETTLES THE CHILD'S PARENTAGE

Two Year Old Baby is Given Over to its Rightful Father, in a Case at Evansville

TWO MEN LAY CLAIM TO IT

Evansville, Ind., Dec. 2—While two year old baby Blanche sat in the court dias, playing with his trouser leg, Judge Lockyear, in probate court decided whom shall become daddy of the child in the future years.

By refusing to order the surrender of the child by Clarence Dilley, lawful father of the child, to Roy Hall through Hall's habeas corpus suit, the judge gave the child to Dilley.

Hall declared he was the father of the child and that the babies mother had made a written statement on her deathbed, to that effect.

Mrs. Dilley's mother, however, produced later evidence near the close of the trial, that the mother made the dying statement giving the child to Dilley. Hall contended that he became father of the child while Dilley was away trying to evade the draft.

EVERYONE SHOULD GET
MARRIED WHEN YOUNG

Assertion of P. V. Jones Who is 83
Years Young and Has Been
Married 63 Years

FATHER OF TEN CHILDREN

New Castle, Pa., Dec. 2.—Every one should get married, and when young, make their fortunes together and be a help to each other. It is the only way in which one can go through life happy.

Take it from Philip V. Jones, boys and girls; that's the one sure recipe of lifelong bliss. And Jones ought to know, 83 years young, married 63 years and as much in love with Mrs. Jones as the day they were married in 1857 with all the gorgeousness and splendor of a church wedding in South Wales, their birthplace. Mrs. Jones is one year younger than her husband.

In 1863 the couple came to America and settled in New Castle. After that, "we worked hard and played hard," said "Ma" Jones. "I have come through 63 years of married life and would not give up one of my joys or sorrows and there have been many of them. I urge every girl to pick out the right man and marry him."

"I should say the women do pick out the men," with a little grin at "pa." "The men never know what's happening to them."

The couple are the parents of ten children.

ASKS SUPPORT OF 108 ASSOCIATIONS

To Present Legislation at General Assembly to Make State Better For Hunting and Fishing

LOOKING FOR ADVICE

Urges Public Sentiment be Aroused For Better Protective Legislation of Indiana

Indianapolis, Ind., Dec. 2.—Officers and members of 108 fish and game protective associations are appealed to for support of legislation to be presented at the session of the General Assembly in January, to make Indiana a better state for hunting and fishing, by George N. Mannfeld, superintendent of the division of fish and game of the state department of conservation in letters to these associations this month.

Mr. Mannfeld points out that concerted and cooperative action is necessary if Indiana is to continue to progress toward the conservation of the limited amount of wild life remaining. "We are looking for advice and suggestions for improving the work of the fish and game division. You may have a thought or an idea that we have entirely overlooked. Let us assure you that we entertain no idea of 'knowing it all,' he says.

"The absolute need of protecting fish, game and birds has long been discussed in the public press and otherwise, especially protection to birds on account of their great economic value to the farmer", the letter reads. "Therefore one would naturally suppose that the movement for their protection originated with the land owner. Strange as it may seem however, such has not been the case. On the contrary, the organized sportsmen in the larger towns and cities were among the first to start a campaign for game, fish and bird protection. Stranger still, the opposition came from the members selected to represent rural or farming districts, the stock argument of those legislators being that game and fish laws were intended for the benefit of the city sportsmen at the expense of the rights of the farmers. Such is not the case and opposition on the old ground will likely be in evidence at the coming Legislature unless a better understanding exists."

"Fortunately now the landowner or tenant looks upon game and fish protection as a necessity. There can be no doubt that the bulk of the people in the State now favor the protection of fish, game, birds and fur-bearing animals, but it has come after the greater part of such resources have been sadly decimated. It seems to be the tendency of human nature to overlook and undervalue the blessings we enjoy. Not until they have passed away do we realize what has been lost."

Mr. Mannfeld urges that public sentiment be aroused to the vital necessity for better protective legislation in Indiana in a few years will be without fish in her waters and game in her remnants of forests and a revenue that could be made return thousands of dollars will be lost while the public generally will lose far more through lack of recreation and sport conducive to good health.

J. FAUST ELECTED TO A JUDGESHIP

Spent Greater Part of His Political Campaign in Hospital Recovering From Wounds

HE SERVED WITH THE FRENCH

Detroit, Mich., Dec. 2.—Although he spent the greater part of his political campaign in the hospital, suffering from wounds received at the Second battle of the Marne, John Faust, a member of Charles A. Learned Post No. 1, of the American Legion here, was elected to a judgeship on the Recorder's Court bench in the recent elections. Judge Faust ran second among the five judges selected.

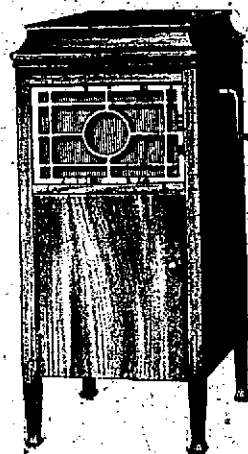

Judge Faust served overseas with the French at Verdun and later with the 18th Infantry. He was in the Marine Hospital receiving treatment at the time of the primary election at which he was nominated on the non-partisan ticket. When members of the American Legion learned of his candidacy, they carried on an active campaign in his behalf.

For Over Seven Years

Back in the early part of 1913 this business was organized and started in a small frame building. Then came a move into larger quarters on account of increased patronage.

TODAY

We occupy our own plant. It is the third place we have occupied since our organization. Our patronage speaks for itself. Year after year we have expanded and added new equipment, which makes our plant today one of the finest in the state

WE INVITE INSPECTION

Come, see for yourself, the different departments in operation. Work is taken care of in Rushville, and is not trusted to some cleaner in an out of town plant. Because of the trust people have placed in us, is only one reason why our plant has so successfully existed under the same management for over seven years.

This plant is the only plant in Rush County that is entitled to the name of "Master Cleaners."
